

SARRAH GANDHI

FULL STACK DEVELOPER

I'm a full-stack developer with a background in visual media and a genuine love for design. I've helped small businesses recover failing websites, led teams to ship on deadline, and built platforms from scratch — always thinking about how it looks, how fast it loads, and whether it actually converts. Most developers hand off to a designer. I don't have to.

PROFESSIONAL EXPERIENCE

Web Developer

Freelancer | 2022 - 2025

- Led the development of 15+ client websites, including eCommerce and landing pages, improving page load speed by 35% and increasing conversions by up to 22%.
- Introduced a code review process for a team of 3–5 that caught bugs early, tightened delivery timelines, and brought on-time completion to 95%
- Designed and built custom websites using WordPress, Squarespace, Wix and Shopify, increasing average client conversion rates by 25%.
- Acted as the bridge between development and SEO teams, translating technical constraints into content strategies that grew organic traffic by 40%+ in 6 months.
- Improved mobile responsiveness and user experience across projects, leading to a 25% increase in mobile engagement.

Full Stack Developer Intern

IDesignTech | 2025

- Built and improved user interfaces for a Laravel-based web application using HTML, CSS, JavaScript, and Blade templates, enhancing overall user experience.
- Translated UI designs into responsive web pages, improving mobile responsiveness and reducing bounce rate by 20%.
- Integrated front-end components with Laravel backend APIs to ensure smooth data flow and real-time updates across features.
- Collaborated with a team of developers and designers in an agile environment, delivering features on time and resolving UI bugs efficiently.

Assistant Manager, Web Solutions

SLAY Coffee | 2022 - 2023

- Owned the website growth roadmap, optimizing page structure, load speed, and checkout flow across 8+ campaign launches. Contributing to a 30%+ increase in online orders.
- Streamlined workflows with Design, Tech, Ops, and Supply Chain, cutting timelines to go into production by 25% in a fast-paced startup environment.
- Partnered with the design team to create and roll out nationwide marketing collaterals across 50+ coffee outlets and cloud kitchens, ensuring brand consistency while aligning offline promotions with digital campaigns to drive measurable footfall growth.

Assistant Manager

Let There Be Light Studios | 2020-2022

- Designed and launched an 8–12 week photography program blending technical skills and creative storytelling, mentoring 10 students monthly.
- Led hands-on studio workshops and concept shoots, increasing portfolio-ready work by 40%.
- Produced 10+ annual showcases and reviews, driving a 30% increase in new enrollments through student visibility and referrals.

PROJECTS

Milestone Manager | 2025

A full-stack wedding planning platform that streamlines RSVP tracking, task management, budget planning, and guest coordination into one organized, user-friendly system.

- Front End: React, JavaScript, TypeScript, HTML, CSS
- Backend: Supabase, PostgreSQL
- CI/CD: CI/CD pipelines using GitHub Actions with automated deployments
